GGR Secondary Safety Device

The GGR secondary safety device (SSD) offers increased safety for vacuum lifter operators, fixers, and other site personnel.

Heavy duty polypropylene straps attach to the crane hook and are ratcheted around the load for easy fitting and removal.

**Features**

- Variable length side straps available to fit most lifters
- Supplied with polypropylene sleeves and hard nylon corners to protect straps from abrasive edges
- Durable storage bag can be stowed on the hook for security

**Reference Codes**

- 8m Strap Length - SSD01
- 11m Strap Length - SSD02

Please Note: These are NOT lifting devices
